

BACK LIGHTING LED MODULE 1.0W 12V MO-Back01WW / MO- Back01NW / MO- Back01CW

PRODUCT SPECIFICATION

Working voltage:	DC 12V constant voltage
Power:	1.0w
Beam Angle:	175°
Flux Lumen	100lm
Dimensions	63.5 (L)*13 (W)*10.1 (T)mm
Color temperature:	3000K/4000K/7000K
Levels of protection:	IP68
Life length	>50000H
Display index	>80
Fix screw:	M3 self-tapping screw
Circuit:	Single lamp can be cut
Working temperature:	-25~60°C
Storage temperature:	-25~70°C
Manner of packing:	Electrostatic bag + cardboard box
Warranty years:	3 years

Quality Affordable LED Lighting Solutions

Attention:

This linear LED product must be installed using a suitable Pro LED Lighting or equivalent approved LED mounting profile/channel to ensure proper heat dissipation. Improper installation may significantly reduce the LED's lifespan, cause color changes, and void the warranty.

Although Pro LED Lighting has taken care to provide accurate information, it cannot accept liability for any errors. The company also reserves the right to change or remove product details without prior notice.
